jonypeixoto.github.io

github.com/jonypeixoto

I have what it takes to do research, design, gaming and hacking that can be seen on my GitHub profile and other initiatives that I am able to implement on projects according to the proposals presented to the team. Besides extensive experience in languages, my current focus is XR technologies, such as VR, AR, MR and WEB X.O. I am goal oriented, drawing motivation from creation of all kinds. I am also able to work independently or as a part of a team.

Education

SENAI CETIQT 2020 - 2022

BSc in Chemical Engineering with focus on industry. I worked on variety of engineering projects related to startups and programmings

Work Experience
